PJSC "GAZPROM" is also responsible for the choice of calculation and presentation methodologies for the Selected Information, their observance and disclosure in the preparation of the Report.

This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of the Selected Information that is free from material misstatement, whether due to fraud or error.

Our Independence and Quality Management

We have complied with the independence and ethical requirements of the Rules of Independence of the Auditors and Audit Organizations and The Code of Professional Ethics of the Auditors, as well as of The International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

Our firm applies International Standard on Quality Management 1, which requires our firm to design, implement and operate a system of quality management, which is supported by policy or procedures

regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our Responsibility

Our responsibility is to express a limited assurance conclusion on compliance of the Selected Information with the Applicable Criteria based on the procedures we have performed and the evidence we have obtained.

We conducted our limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information. This standard requires that we plan and perform this engagement to obtain limited assurance about whether the Selected Information is free from material misstatement.

A limited assurance engagement undertaken in accordance with this standard involves assessing the suitability in the circumstances of PJSC "GAZPROM" use of Applicable Criteria as the basis for the preparation of the Selected Information, assessing the risks of material misstatement of the Selected Information whether due to fraud or error, responding to assessed risks as necessary in the circumstances, and evaluating the overall presentation of the Selected Information.

A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

The procedures we performed were based on our professional judgment and included inquiries, inspections of documents, analytical procedures, evaluating the appropriateness of quantification methods and reporting policies, and agreeing or reconciling with underlying records.

Given the circumstances of the engagement, in performing the procedures listed above we have undertaken the following activities:

- Interviewing the management and employees of PJSC "GAZPROM" and obtaining documentary evidence.
- Study of information available on the websites of companies within the Gazprom Group related to the Selected Information.
- Study of public statements of third parties concerning environmental and social aspects of Gazprom Group activities, in order to check the validity of the declarations made in the Report and related to the Selected Information.
- Analysis of non-financial reports of comparable companies for benchmarking purposes.
- Study of the existing processes of collection, processing, documenting, verification, analysis and selection of data related to the Selected Information to be included into the Report.

- Analysis of the Selected Information for compliance with the Applicable Criteria.

The procedures were performed exclusively in relation to data related to the Selected Information for the year ended 31 December 2023. The procedures were not performed in relation to any other information disclosed in the Report including compliance statements not related to the Applicable Criteria.

The procedures were not performed in relation to forward-looking statements; statements expressing the opinions, beliefs and intentions of PJSC "GAZPROM" as the parent company of Gazprom Group to take any action related to the future; as well as statements based on expert opinion.

The procedures were performed in relation to the Russian version of the Report that is approved by Chairman of the Management Board and contains information to be published.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion about compliance of the Selected Information, in all material respects, with the Applicable Criteria.

Limited Assurance Conclusion

Based on the procedures performed and evidence obtained, nothing has come to our attention that causes us to believe that the Selected Information has not complied, in all material respects, with the Applicable Criteria.
